

Installation and User Guide

Recessed Range Cubicle Recessed Unit

Applicable to products:

92306SS	Cubicle Recessed Unit - Stainless Steel Brushed
92306BK	Cubicle Recessed Unit - Black Powder Coated

Thank you for choosing the Dudley Industries Recessed Range.

The Cubicle Recessed Unit is designed and manufactured by our team at our facilities based in Lancashire, UK. All our products are designed to withstand constant use in busy environments. Our Cubicle Recessed Unit is supported by a 10 year warranty provided it is installed and maintained correctly and not subject to any vandalism. Products must not be modified in any way as this will invalidate the warranty.

Please follow these instructions for safe installation and pass this document to the user for safe keeping.

Safety Information

Please read these instructions thoroughly before installation and retain for future reference.

Remove all packaging and check contents for any damage prior to commencing installation. If there are any issues please contact our Customer Services Team on +44 (0) 1253 738311.

Before commencing installation and drilling into walls check that there are no hidden electrical cables or water pipes.

When using power tools always ensure you wear the correct PPE and operate following the manufacturer's instructions.

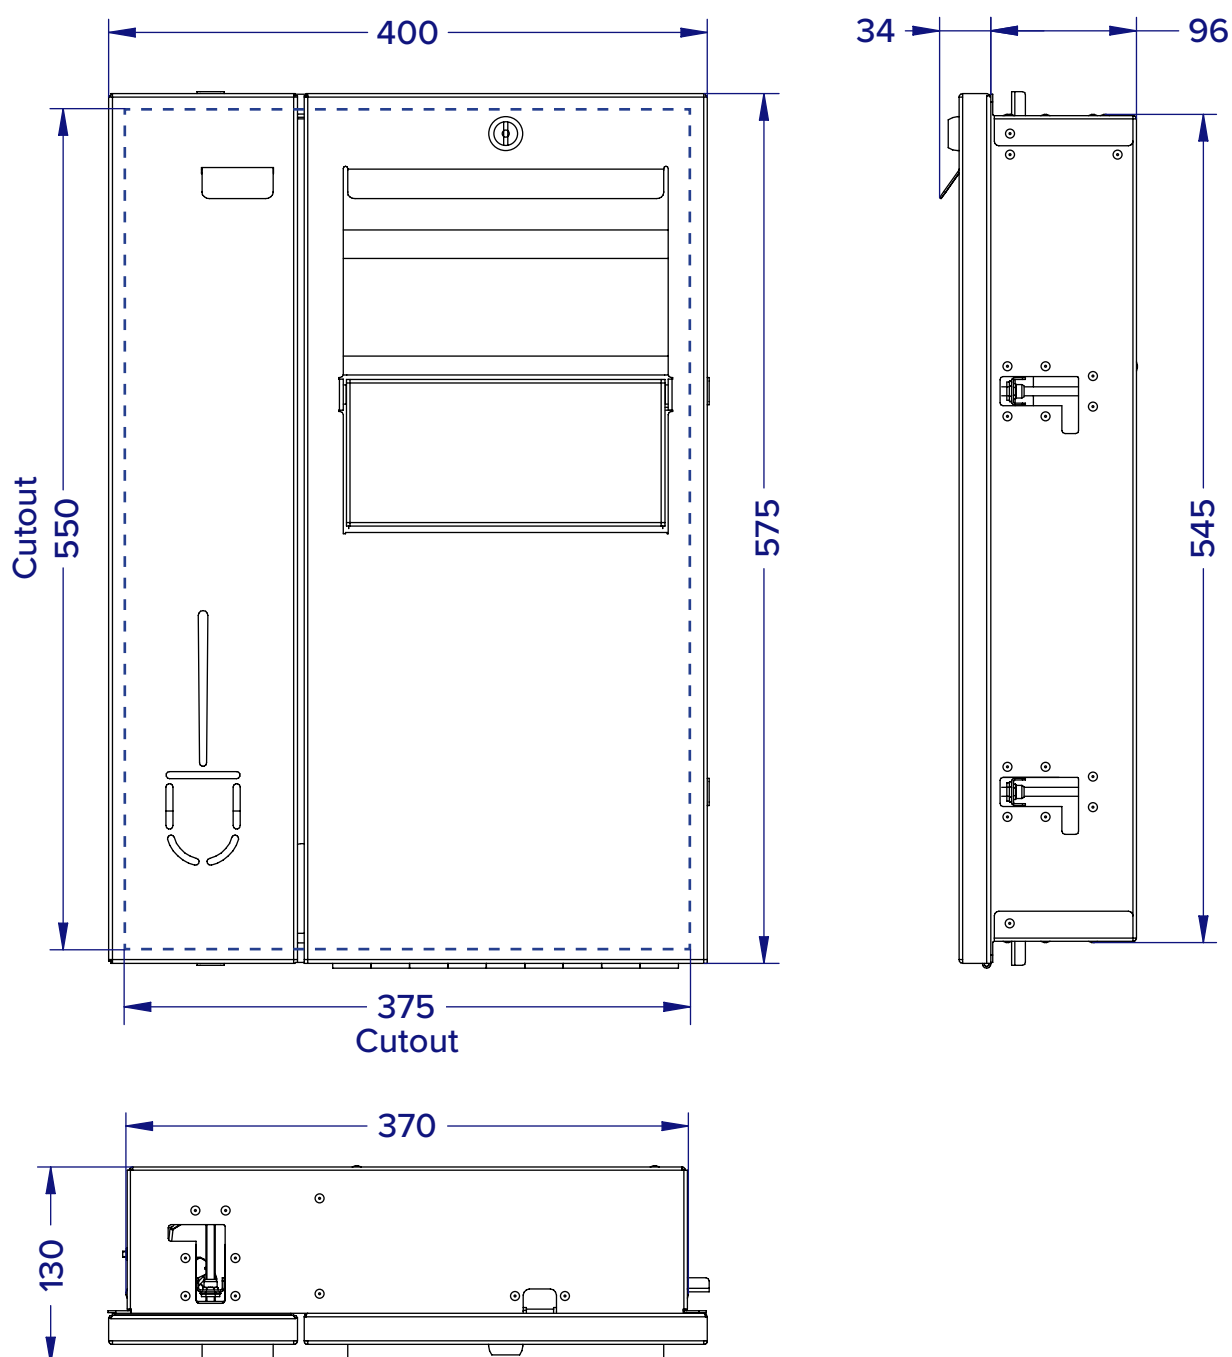

Product Features

The Cubicle Recessed Unit uses the space available in a wall cavity to recess the unit, helping to save space and support the washroom decor.

A stylish, discreet and space saving housing for a twin tissue roll holder and concealed 5L waste bin and toilet brush.

Units are manufactured in stainless steel for a stylish and durable finish with the choice of brushed or powder coated black finishes.

Unit Dimensions

PRODUCT INSTALLATION

Prior to installation ensure correct size wall opening has been cut for the unit as follows.

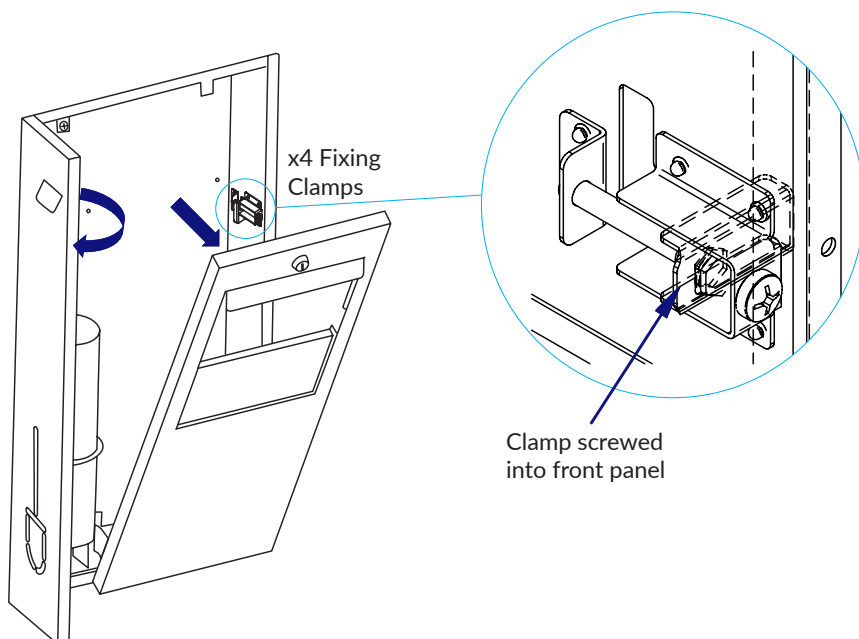

- Before commencing drilling into walls check that there are no hidden electrical cables or water pipes.
- Cut out an aperture of 550mm height and 375mm width ensuring a minimum clear depth of 100mm.

Position the unit in the opening.

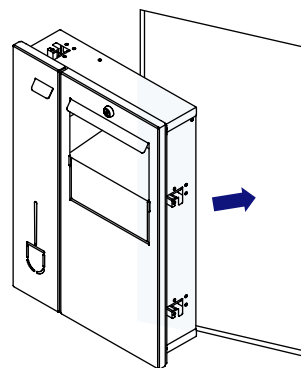

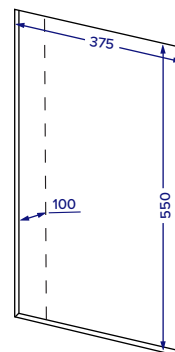

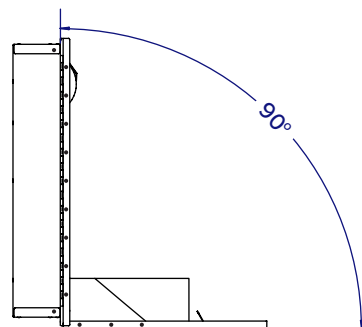

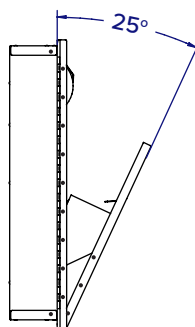

- Fit unit into wall opening (Caution Heavy Object).

Fix unit into place:

- Open both the hinged toilet brush and waste bin doors.
- Use the 4 clamps built into the unit to fix into wall cavity

NOTE: The waste bin door hinges forwards and opens 25°. If you require to open the door further to ease installation, detach stopper to allow door to open to 90°.

Filling and refilling

Twin Toilet Roll Holder

- Unlock the right hand door and carefully hinge open.
- Remove the toilet roll holder bar.
- Load two domestic style toilet rolls on to the bar and reposition.
- Close the door and relock to prevent pilfering.

General Maintenance & Cleaning

Brushed Stainless Steel Units:

Clean with warm water and a soft cloth, wipe in the same direction as the brushed grain. Dry thoroughly. DO NOT use soap, chemical cleaning detergents or abrasive cleaners.

Powder Coated & Lacquered Units:

Clean with a mild detergent and soft cloth. Ensure any detergent is fully rinsed off prior to drying thoroughly.

End of Life Disposal

All Dudley Industries units are manufactured to ensure longevity and a reliable life span. When the free vend dispenser has reached its end of life it should be disposed of in a safe manner. Most components can be re-cycled in accordance with your local authority waste management policy.
